

SHAMITHA GOWDA

+91-8792889808 | shamitha2807@gmail.com | [Linkedin](#) | [sosham.me](#) (AI product prototypes) | [github](#)

Product Manager (4 yrs+) building AI-powered consumer healthcare products across India, Cayman Islands and the US. [Ships with AI: OCR + LLM report analysis in beta, AI summaries in production, independent AI products on the Anthropic API \(sosham.me\)](#). Built products that contributed to digital revenue growing ₹4.4Cr→₹13.6Cr/month (3x). Scaled NH Care to 3.67M installs, introduced Mixpanel org-wide, drove 20+ funnel experiments. Led 0→1 scoping across India, Cayman Islands, and the US: 150+ user interviews across 10+ nationalities.

EXPERIENCE

Product Manager, Narayana Health - Bangalore Jul 2023 - Present
4 verticals • Installs 1.64M→3.67M (+124%) • MAU 215K→280K+ • DAU/MAU 8.3%→10% • 50+ cross-functional (25+ eng, 10 design, 7+ QA, ops, biz)

NH Care | Consumer App & Digital Platform • 3.67M Installs

- **Built the guided service journey (0→1) - Pay Online revenue grew from ₹40L to ₹13.3Cr/month.** One workflow across booking, check-in, consultation, investigations, payments, and follow-ups. Payment visibility on the homepage and notification journeys with payment CTAs.
- **Increased digital bookings from 32% to 53% of total appointments** by revamping the booking flow (consultation-specific slots, alternate provider suggestions, faster paths) and fixing drop-offs found in Mixpanel funnel data.
- **Shipped Pulse AI report intelligence** - OCR ingestion of uploaded documents plus LLM analysis producing plain-language summaries, with CTAs
- **Launched the Banashankari consumer subscription plan** with automated recurring payments: **UPI and card AutoPay** mandates on Juspay HyperPG. Live, rolling out August 2026. Used claude design to design the flow and AI to help make the architecture in **1 month**
- **Grew subscription revenue ₹31.8L→₹3.75Cr** in FY24-25 (42% digital, peak 59%) by building Easy Add Plan at checkout, Onboarding 2.0 (91% completion), Renewal 2.0 (51% digital renewal). Health Packages +157% (₹0.43Cr→₹1.10Cr).
- **Introduced and implemented Mixpanel org-wide**— event tracking, funnels, retention analysis, and flow-level analytics across records, bookings, and subscriptions. Connected to Zoho CRM for sales leads; extended to both Cayman platforms.
- **Built Health Records as the app's primary retention layer:** 40% post-login adoption, 90K monthly viewers, 50% same-day return rate. Generated 248 organic bookings in 2 weeks with zero marketing spend.
- **Arya vertical (0→1 purchase workflow):** checkup scheduling, automated pricing, decisioning, plan creation, renewals, and activation UX. Installed Mixpanel at every step; currently in controlled rollout.

HCCI | Cayman Islands App & Portal • On-Ground, Cayman Islands

- **Originated passkey authentication** for login after spotting that SIM and mobile number recycling in the Cayman market was breaking account security. Designed the authentication strategy using AI and the backend architecture to support multi device logins via passkey.
- **Delivered digital registration, payments, checkups & OTP login achieving 80% process automation** – reduced manual front-desk processing and grew digital payments from near-zero to \$50K+/month.
- **Redesigned authentication flow, improving login success from 60% to 93-95%** by changing the login method and implementing multi-trigger OTP. Led to 41-65% appointment growth, 75% repeat visit uplift, and 12-14% fewer cancellations.
- Conducted 25+ user interviews across 10+ nationalities during the 2-month on-ground deployment.

Product Owner | One Health Cayman • 4-Portal Operations Platform • US & Cayman Islands • 2-Month On-Ground Scoping

- **Own the entire platform:** strategy, workflows, and execution across 4 portals (Member, Employer, Provider, Admin) serving 10,000+ members, 100+ employer companies, and 5,000+ users across 75 facilities in Cayman and 50+ providers in the US.
- Led VBA and athenahealth integrations automating eligibility, claims, and policy operations across all portals and partner systems.
- Scoped the product from scratch in a foreign market: 50+ interviews across American, Caymanian, and European demographics during 2 months on the ground.

Product & Growth, The Product Folks - Bangalore Apr 2022 - Jul 2025

- **Built the AI PM Interview Simulator (0→1)** - LLM-powered mock interview tool. Designed prompt architecture, evaluation rubric, and feedback UX. Adopted across the PM community.
- **Drove 2x community growth;** led GTM for Insurjo (35K registrations, +17% attendance) and Ally Product (#2 Product Hunt, 800 Week-1 signups).

Independent AI Product Builder - sosham.me Dec 2025 - Present

AI-native products • React + Vite + Supabase + Anthropic API • Live at [sosham.me](#) • Code at <https://github.com/so-sham>

- **AI Nutrition Planner + AI Workout Planner:** LLM-powered personalized meal plans (dietary preferences, macros, regional cuisines) and progressive training programs. Owned problem discovery, UX, prompt engineering, API integration, deployment.

AI & Operations, Xthrive Fitness - Bangalore Aug 2025 - Feb 2026

- **Built AI fitness reports for 70 paying members**— Antropic API + AI logic and evals to generate personalized 11-page PDF reports with percentile scoring, badge/tier logic, and AI narrative summaries.
- Streamlined the member onboarding workflow, cutting manual steps for staff.

Growth Manager, Kampd - Singapore Jul 2022 - Jul 2023

- **Grew DAU engagement by 67%** through stakeholder partnerships and community building with TiE Global Summit, Singapore FinTech Festival, and IITs as early adopters. Achieved 5x user engagement and a 20% brand recognition boost.
- **Optimized the Soapbox feature** through user tests: 30% higher satisfaction, 25% lower churn. Doubled partnership growth with AWS, WWF, and IBM.
- Directed cross-functional planning and documentation for the **TiE Global Summit and Singapore FinTech Festival 2023**, ensuring efficient execution and reliable access to operational data.

EDUCATION

B.E. Civil Engineering, Sir M. Visvesvaraya Institute of Technology | CGPA: 7.9 2018 - 2022

- **Chief Product Operations Officer, AIESEC (Jan 2021 – Jan 2022):** led a 60-member international team to 50% market share growth and 22% sales funnel conversion increase through persona mapping and international partnerships.
